

Zaldy Jabiñar

Summary

I have been working as a multi-platform application developer and System/Database Administrator for 15 years, with insights and experience in a wide range of tools and a skillset which includes programming, network management, database administration, graphic design, business strategy and planning.

Throughout my career I have been privileged to work on projects which interfaced with industries. And it is my passion, and I want to continue developing the skills I have been building over the last decade.
